

Photography club

The photography club has been working tirelessly to freeze all the events of the school. The photography club comprises of a board of thirteen members.

Throughout the year the club conduct classes on photography where they teach the skills of proper photography, to capture life's best memories. During fest the boys work tirelessly for days.

We even have a display board where all the photographs are taken of the events are displayed. We also hold competitions where the best three photographs of the minims and the senior's are displayed on the board, they are awarded with prizes and the photographs are also printed in the Jacobean Magazine.

We thank our teacher in charge Mr. Christopher D'Souza for his constant support and encouragements to make this club significant in school.
