

## SCIENCE CLUB REPORT

This year started off well for the science club. Ishan Agarwal , the president of the club gave an inspiring speech on ecstasy and joys associated with studying science day on. And thereafter students of class 5 to class 10 were taken to Birla Industrial and Technological Museum (BITM) to visit a science exhibition.

The club meets every alternate Tuesday after school, where the board members teach topics on science to the members. Some of the topics taught this year were on magnetism, nervous system etc. how to distinguish between acid and base were shown to the students of class 5 with the help of litmus paper.

Ayan Banerjee, Nitish Dutta and Souryadeep Saha conducted the inter class Science quiz for all classes. The response by the members of the club has been encouraging. Though earlier, it was difficult for juniors to understand concepts like those of magnetism, but after demonstrating to them with the simple bar magnet, they were able to understand the concept and also answer the questions asked to them. The cation and anion tests were shown to the students and they had to guess the colour. Mr.G.P.Ghosh helped creating excitement in the students and encouraged them to answer as well. The senior members continue with their efforts to inspire the students to pursue science.The board consists of – Ishan Agarwal , Souryadeep Saha, Ayan Banerjee, Rishav Rastogi, Nitish Dutta, Saubhagya Chowdhury Ishaan Lodha, Kaustav Chakraborty and Soham Pal.

But for the untiring efforts of the teachers in charge, who are Mr. N.R. Chatterjee, Mr. G.P. Ghosh, Mr. S.Chakraborty and Mrs. M. Sircar. The many interesting activities that the science club took up this year would not have been possible.

A special mention must be made of our lab assistants Prabir Da and Chinmoy Da who provided us with the samples and were always there to help us conduct the many experiments. Science club has been successful in inspiring students in the field of science, which is clearly visible in the large turn up of students at the meetings and the enthusiasm and zeal demonstrated by them.
